CUSTOM FABRICATION

TROCO Custom Fabricators is a premier fabrication company specializing in Architectural Metal Production. Our company brings considerable knowledge of metalwork, but strives for a higher level of design aesthetic than a conventional fabricator. TROCO's uniquely qualified personnel are a combination of technician and artisan, and have earned an outstanding reputation for craftsmanship and fine detailing. In addition, the staff at TROCO possesses the ingenuity to value engineer initial design intents, thereby providing their clients cost savings without sacrificing design integrity. TROCO prides itself on contributing its collective expertise to the collaborative between architect and contractor for the creation of a more successful project.

TROCO is comprised of three divisions to service multiple business sectors: Production, Architectural and Sculptural.

ARCHITECTURE

Project: Stair Case – Private Residence
Location: St. Louis, MO
Architect: Carlos Mindreau, Miami

SCULPTURE

Project: Rotations
Location: Ann Arbor, MI
Sculptor: Douglas Hollis

PRODUCTION

Project: CoreLife Eatery Table Bases
Location: Various East Coast restaurants
Designer: Tom Jung

TROCO's Architectural Division serves the architectural and construction industry throughout the nation. We are capable of fabricating building facades, sunshades, stair rail, door systems, lighting, signage, site amenities and fences – just to name a few components. At TROCO, we are experts at taking design ideas from initial conception to real-world architectural elements.

TROCO ASSEMBLES AND INSTALLS.

trocofab.com

TROCO's Sculptural Division has created numerous works of sculpture, civic memorials and corporate identity. When an artist/architect receives a commission, TROCO is often enlisted to fabricate, transport and install the piece. Over the years, TROCO has enjoyed building excellent relationships with numerous nationally renowned artists.

TROCO CREATES.

314.781.6060

TROCO's Production Division is often contracted to fabricate the same components in numerous quantities. Sometimes it's a table base – sometimes it's a structural bracket. TROCO has the ability to run production jobs quickly through our facility. Contactors appreciate that we are proficient with the logistics, delivery, scheduling and phasing of their projects.

TROCO PRODUCES.
